

House address: Osoje VII, no. 11, Okrug Donji, www.villaciovo.cz

From highway E65, take exit 24 towards Prgomet, then continue to Trogir. You can reach Čiovo island via two bridges; we recommend taking the new bridge, which goes around the center of Trogir and has less traffic.

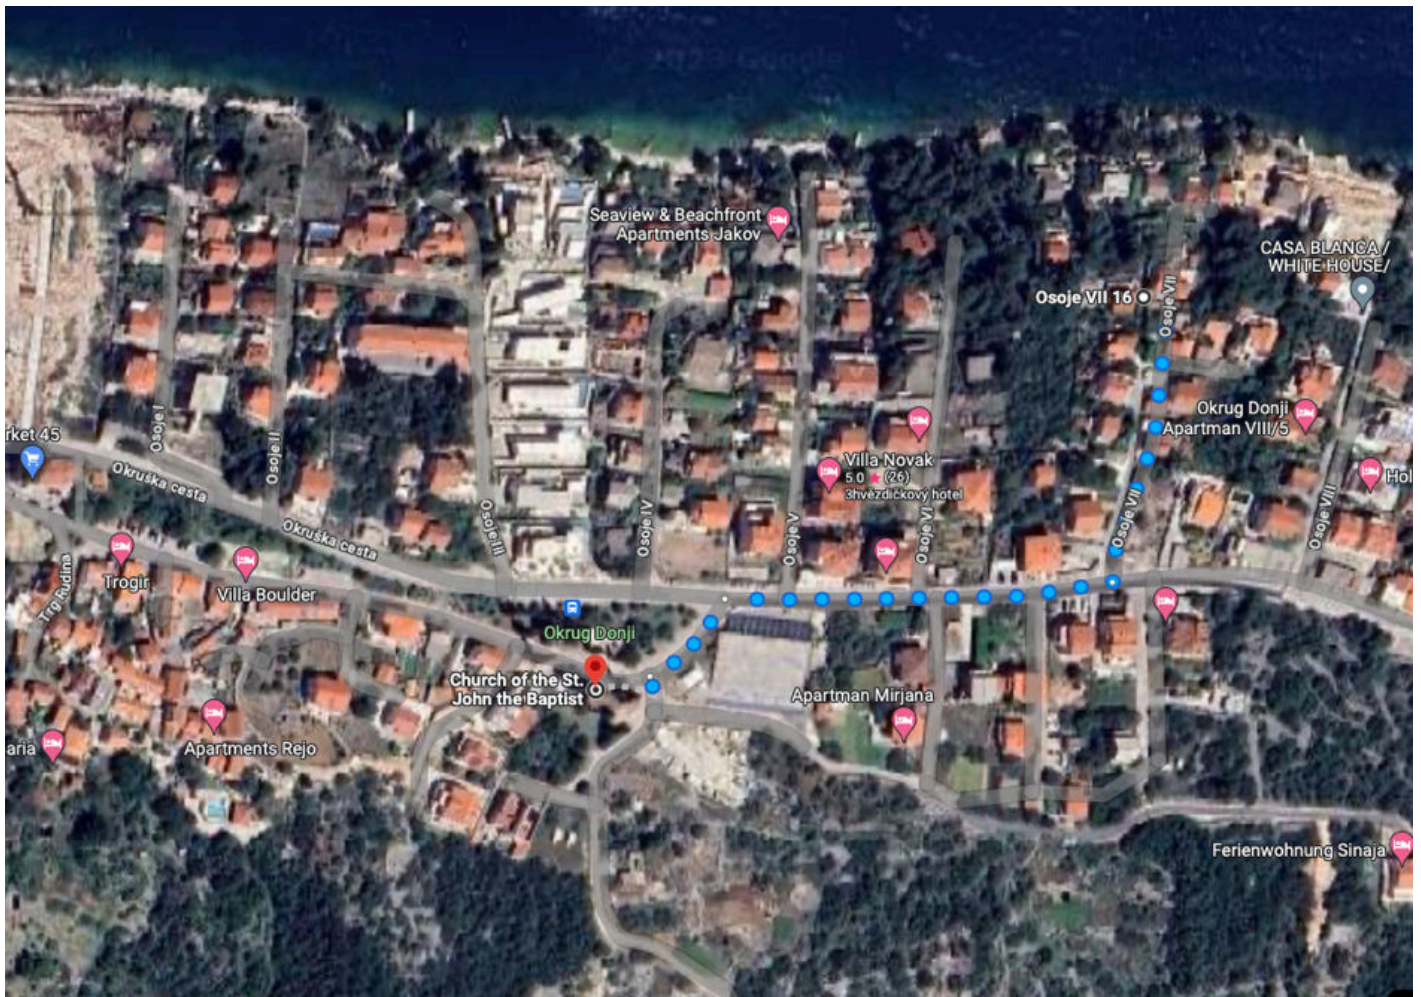

The villa is located on a hill above the sea. It is not possible to park directly at the villa, but you can drive up to unload your luggage and then move your car to a parking spot about 160 meters away by the main road. If you decide to drive to the villa, we recommend reversing in and driving out forwards, as there is no space to turn around at the villa. Experienced drivers can manage this easily; we do it regularly ourselves.

If you do not feel confident driving all the way to the villa, you can park by the main road, unload your luggage there, and carry it about 60 meters to the villa.

Other parking spaces are public and are located about 300 and 400 meters from the villa.

The first parking option is the parking spaces behind the church:

Another option is parking spaces located near the grocery store.
